Circular # 18
(For classes I to IV)

Dear Parents

The value of gift is measured not by how much money has been spent, but how much loving time you have spent in carefully making / procuring the gift. Receiving of gift is as joyful as giving a gift for children. There is excitement while opening the surprise gift enclosed in the child's packet. Like every year we will be celebrating Christmas (2009) . Each child will bring one gift which will be mixed with the other gifts and randomly distributed to children. I am confident that all the parents will participate by doing the following.

What you have to do is:

1. Carefully select a gift which your experience and taste will tell you would be appreciated by children. A gift costing around Rs. 50/- will bring some kind of balance in all the gifts.
2. Place the unwrapped gift along with wrapping paper in a spare bag.
3. The gift should reach the class teacher by 19.12.09

Thanks for your co-operation.

Asha Singh
Principal
